

Local fidelity of joint replacements

--■-- SVD, weight fit --■-- Copy + residual, weight fit
--●-- SVD, input fit --●-- Copy + residual, input fit

Counterfactual prediction error

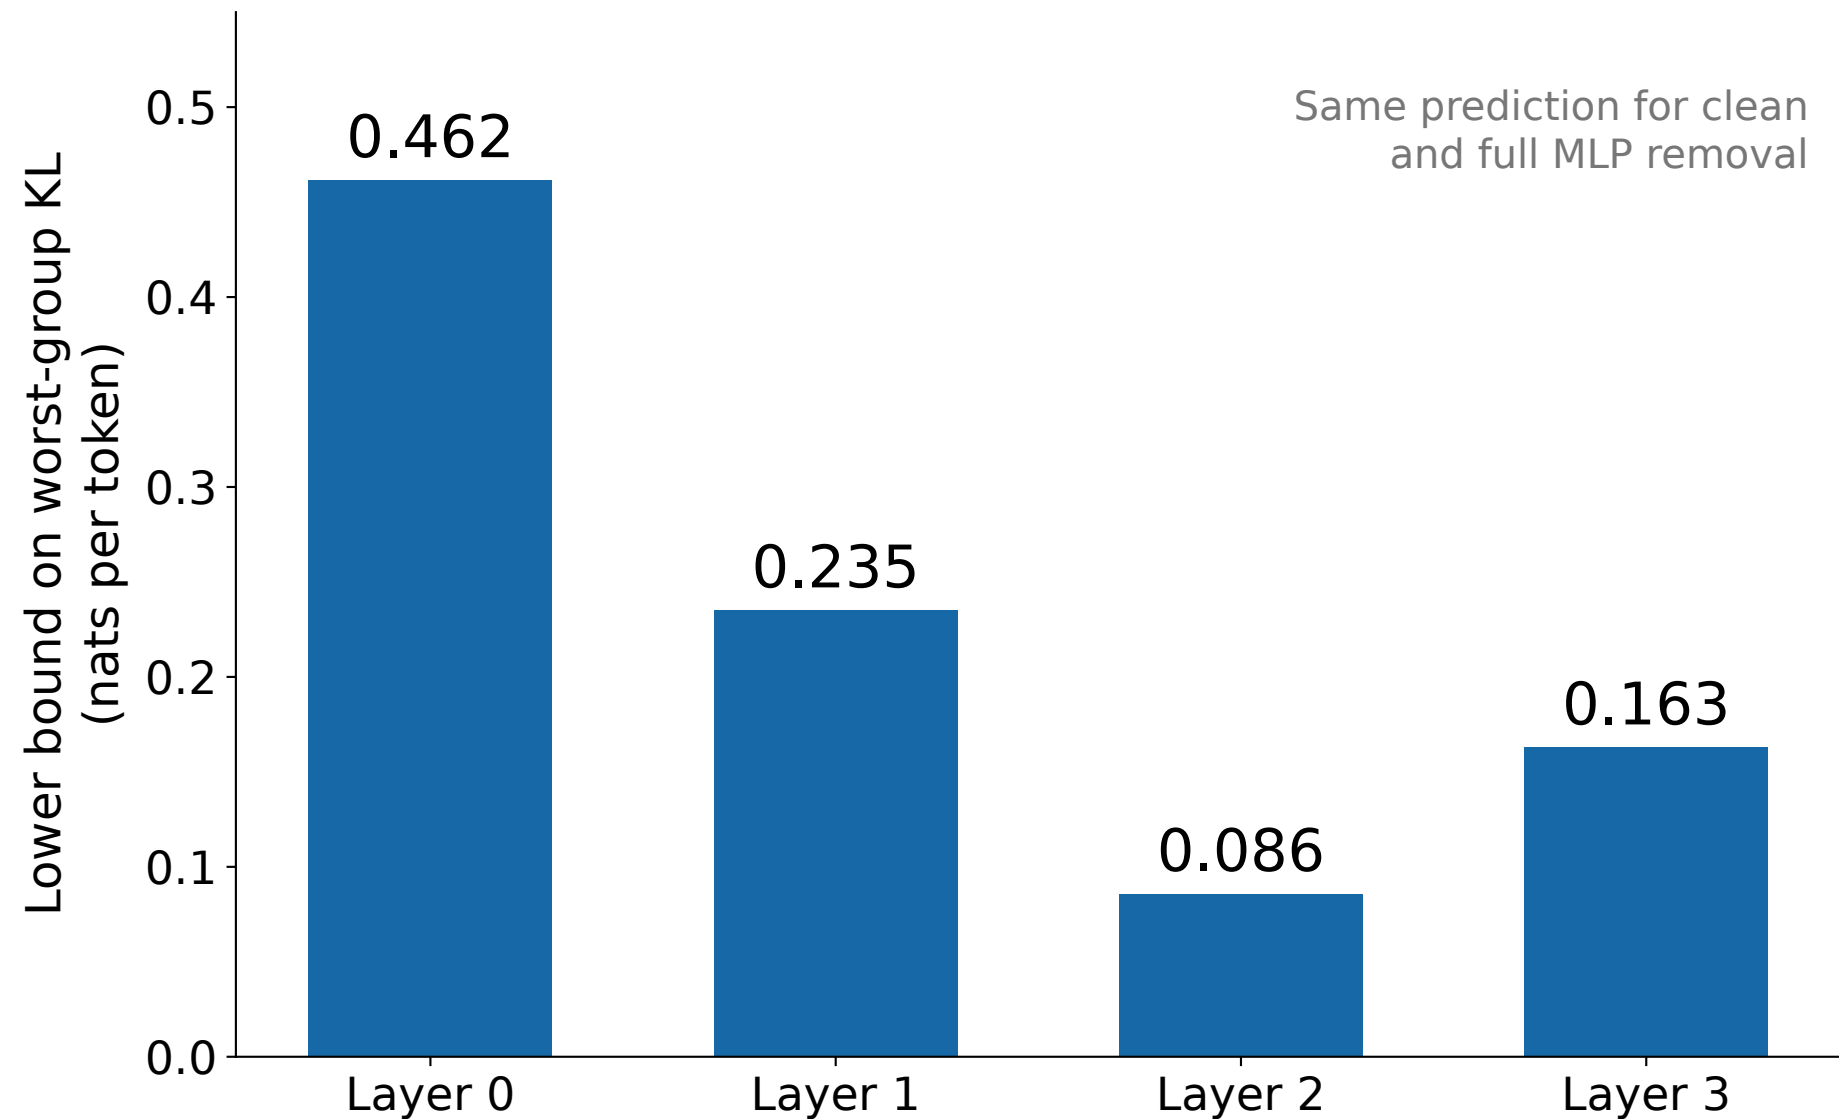

6 local failures:
run error not measured

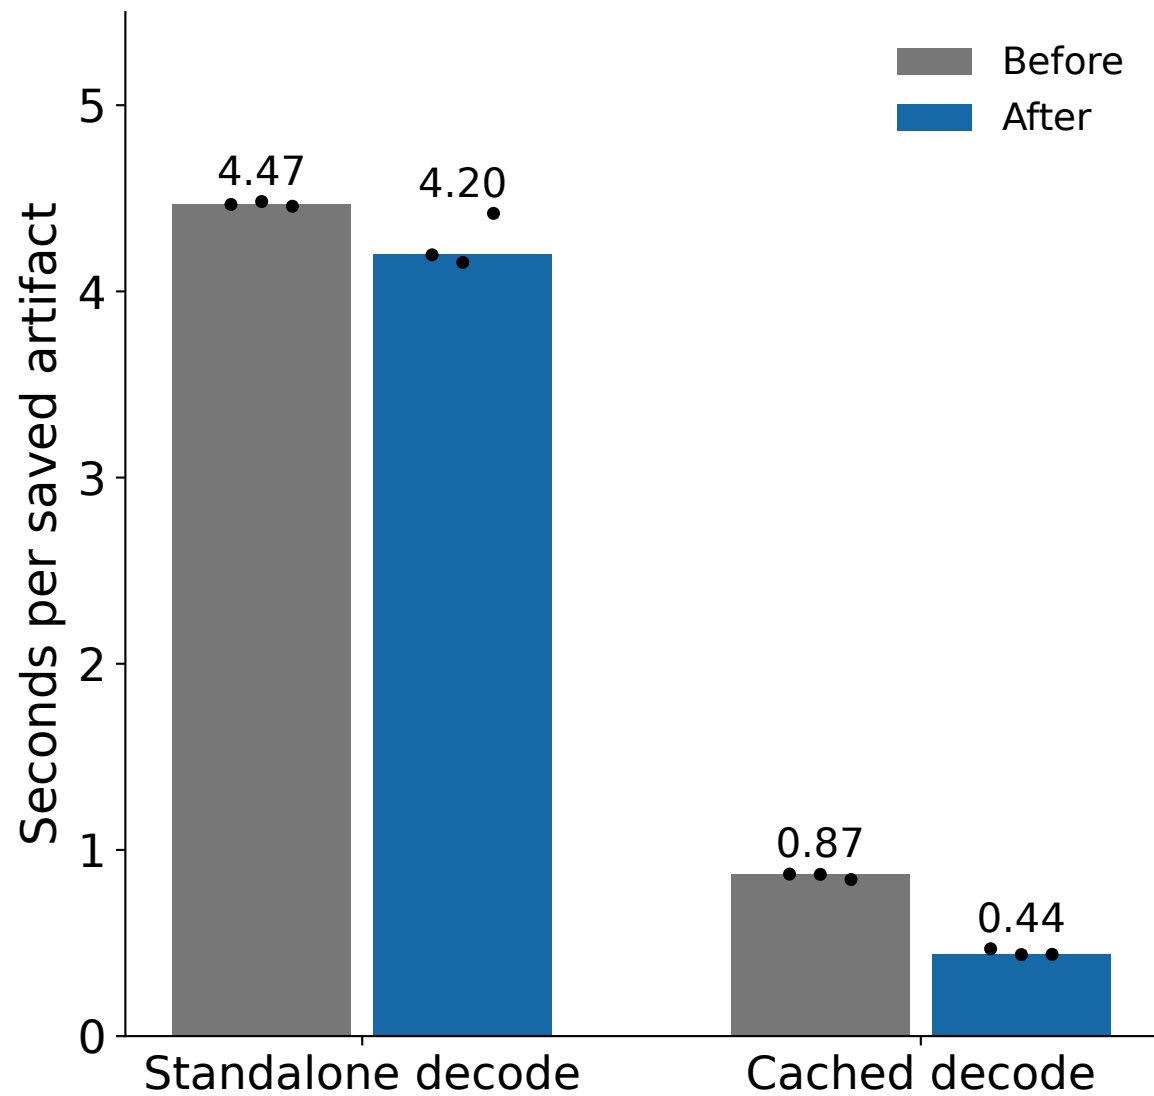

Description savings across the fidelity frontier

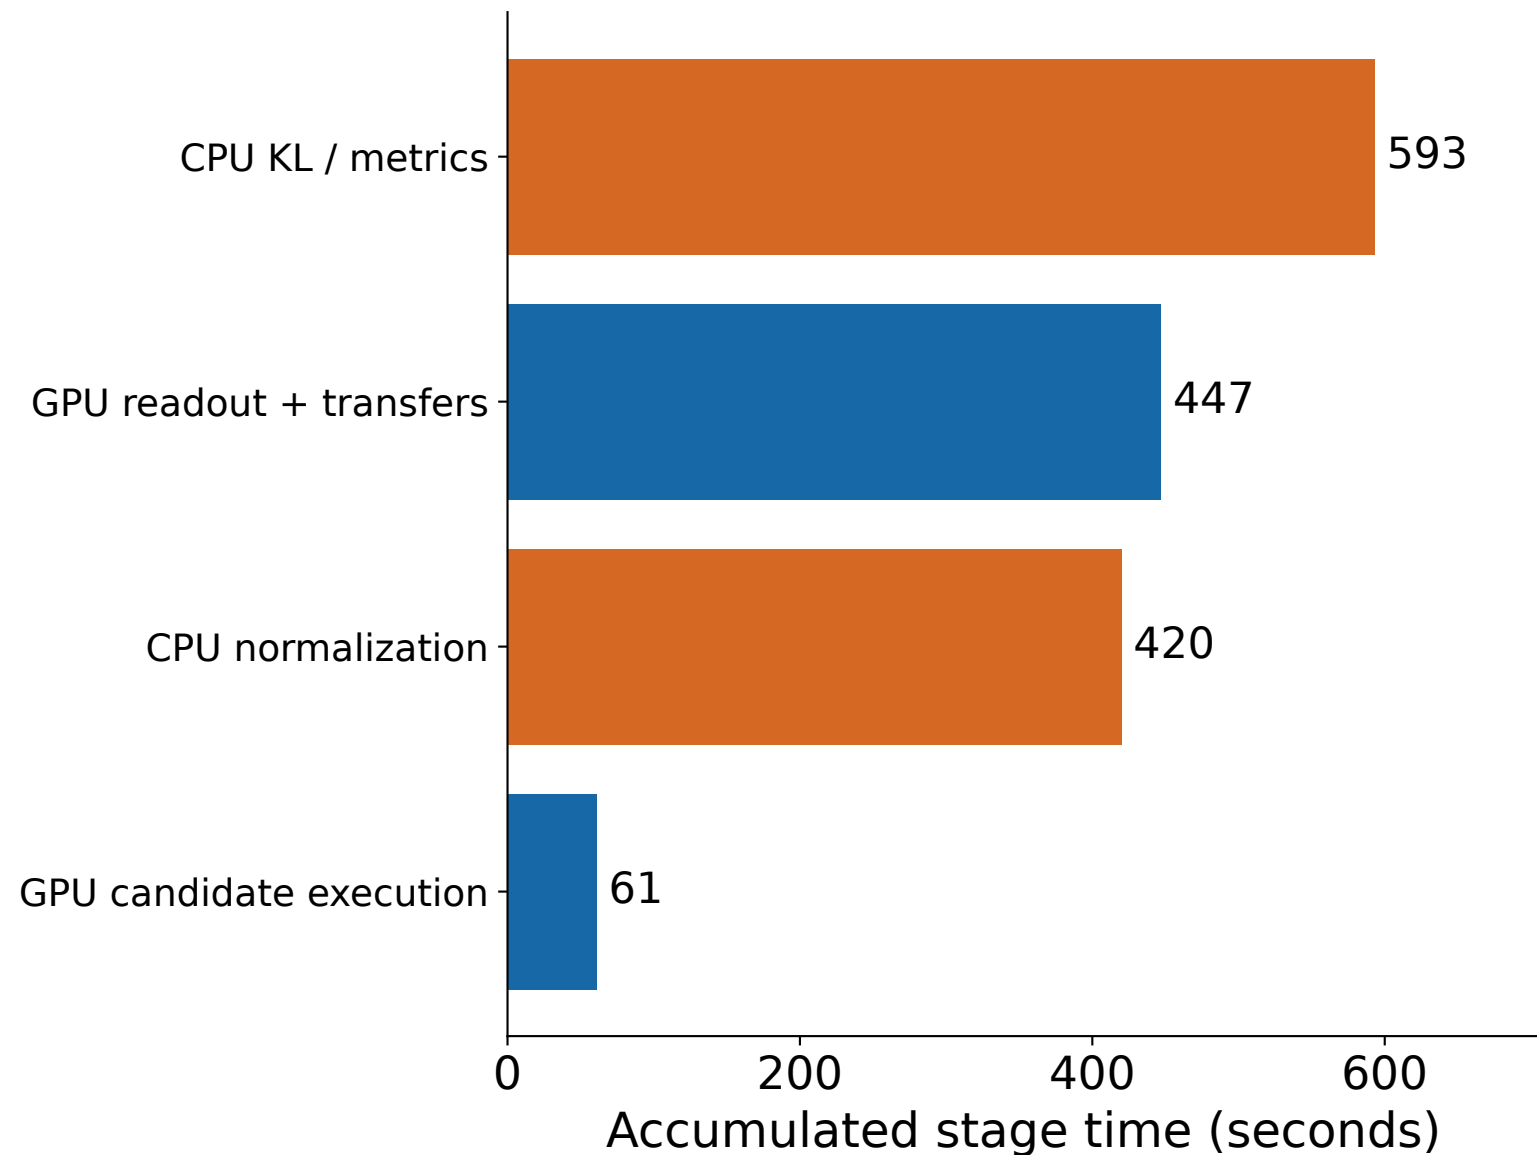

Ignoring an omitted control imposes an error floor

Cached decoding is 1.98x faster

The joint run is metric-bound

A response rule fixes one missing control
